3. Assembling instructions of RACK:

The free standing, ready-to-assemble RACK cabinet is delivered in 4 separate packages.

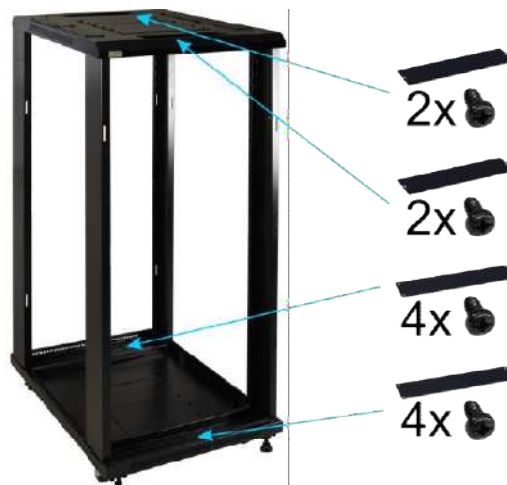

Place horizontally two RACK cabinet frames with both top and bottom plates.
Pay attention to the grounding in the frame - as shown in the drawing

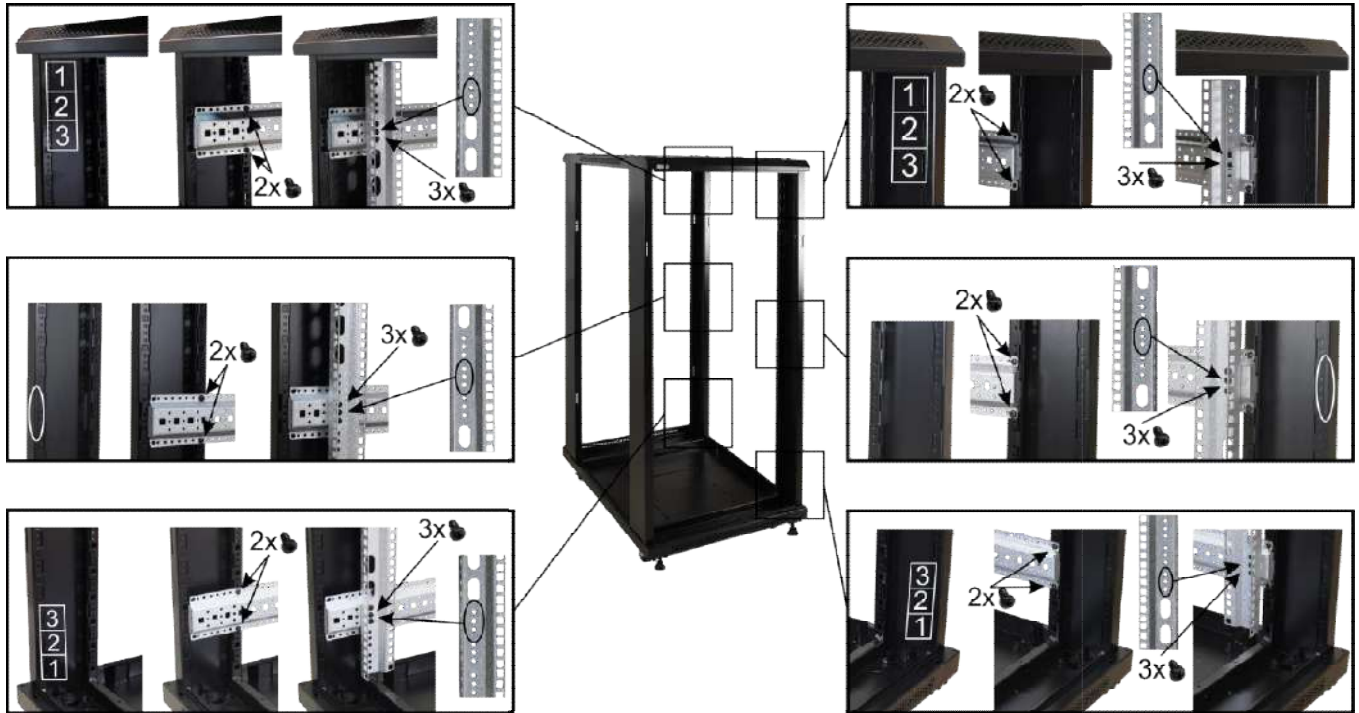

Mount the top plate and bottom plate to the left and right frames of the RACK cabinet, respectively.
Use M8x12 Head Cap Screws with M8 nuts (16pcs). Screw the cabinet **wheels** and **legs** to the bottom plate of the cabinet.

Place the RACK cabinet vertically and mount:
- Cable gland end cups (up and down) –screw 10mm (black) - 12pcs

Inside the cabinet, install the cross profiles and RACK profiles from the inside (front and rear), as shown in the figure below.

Installation of front, rear, and side doors
